

CSS Practice Set 2

Instructions:

1. Do these questions in a Vanilla JS template editor. You can use Vanilla JS CodeSandbox or REPL.
2. This set is about practicing CSS.
3. Use Internal or External CSS to solve these. Do not write inline styles.
4. You don't need to do this in React JS.

Questions:

1. Create a card that includes an image, a title, and a description. Position the title and description below the image, and center them horizontally.
 1. The card should have a width of 400px and a height of 500px.
 2. Make your card look closest to the image shown below. Use appropriate padding, margin wherever required. And you can use your own image for the same.

2. Create a card that includes an image, a title, and a description. Position the title and description below the image, and center them horizontally as shown in the screenshot below.
 1. The card should have a width of 500px and a height of 400px.
 2. Make your card look closest to the image shown below. Use appropriate padding, margin wherever required. And you can use your own image for the same.

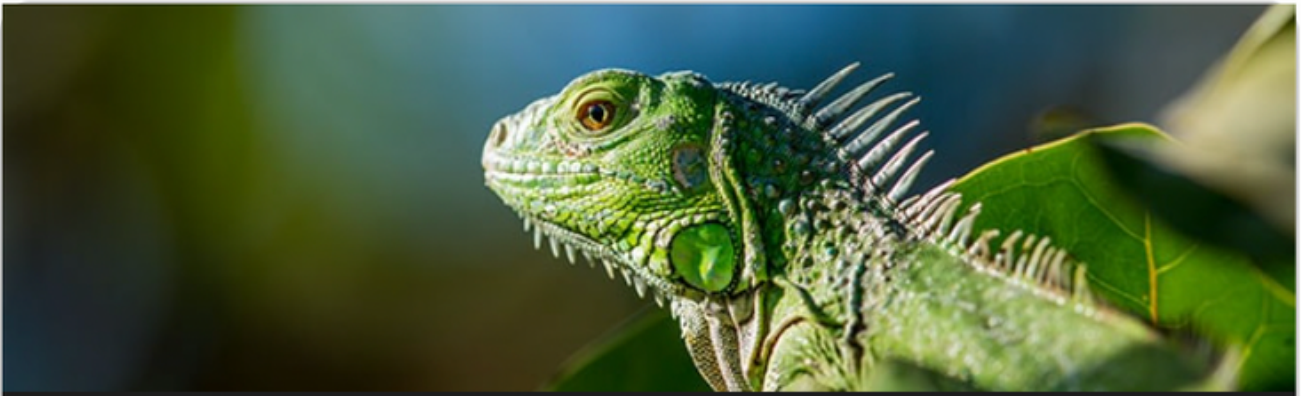

Card Title

Card Description

3. Create an info card that includes an image, a title, description and two clickable items “Share” and “Learn More”.

1. The card should have a width of 400px and a height of 300px.
2. On hovering over Share and Learn more, the pointer should show as a cursor.
3. Make your card look closest to the image shown below. Use appropriate padding, margin wherever required. And you can use your own image for the same.

Lizards

Lizards are a widespread group of squamate reptiles, with over 6,000 species, ranging across all continents except Antarctica.
