

Assignment Ten

Please read:

- This is your tenth assignment which you need to submit on the LMS. This is an assignment on CSS Advanced.
- Work on the questions given below and be ready with your solution in CodeSandbox. You have to submit your CodeSandbox link below on this page.
- Late Submission: The deadline to submit this assignment is 19th February 2024, 6:00PM IST.

Important Instructions:

1. Make sure that you follow the css rules as it will help you build your muscle.
2. Do not copy from someone else as that would be cheating.

challenge

Your challenge is to build a small app containing different components with their documentation in React JS.

Make sure to have different CSS files for different set of components.

Make sure to have documentation for each document that you create.

You need to do this assignment on codeSandbox and submit your codeSandbox link.

You can watch the video for reference:
